## PROJECTS

### Instagram Clone, - *React*

Languages Used: JSX, CSS, Javascript.

Created an instagram clone with authentication. You can comment, like pictures or search through pictures.

### Life Dashboard, - *React*

Languages Used: JSX, CSS, Javascript.

Welcome to your personal customizable web dashboard! Choose any selection of components( From the 40+ Components I have Built out) and they will be all be rendered into one beautifully styled dashboard!

### ThreeJS Projects, - *Three.JS*

Used WebGL, ThreeJS, Javascript, Css, Html

Want someone who is proficient with an animation framework? Of course you do. Who wouldn't want someone who create animations that outclass the competition. I have a collection of my THREE.JS projects in this repository <https://github.com/Bryce-Soghigian/Three.js-Project-Deployments>

## EDUCATION

### Lambda School, - *Computer Science*

Computer Science education that simulates a real job experience. At lambda I worked with a team of developers to build real projects
